## User Registration and Login

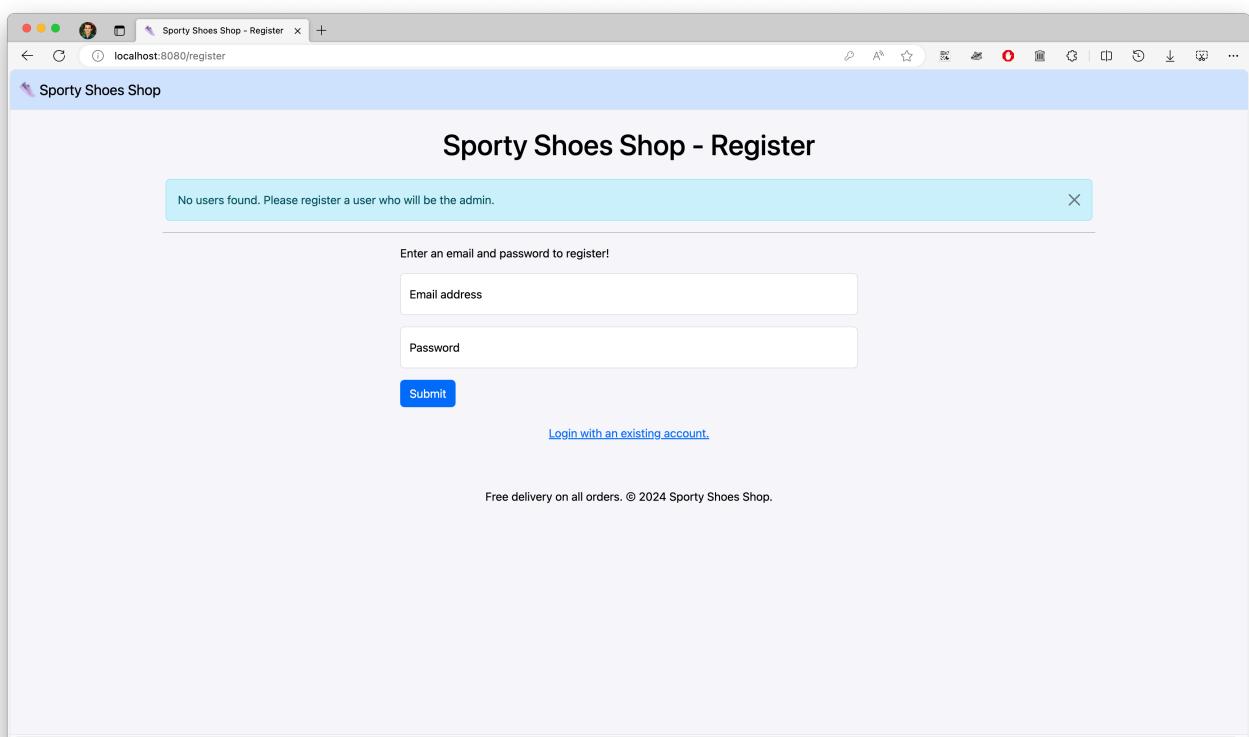

When the application is first run and opened, the user is greeted with the login page. If the user does not have an account, they can click on the "Register" link to create an account. If no user has been created, a banner is shown asking the user to create the admin user for the site.

The user cannot access any other pages until they have logged in.

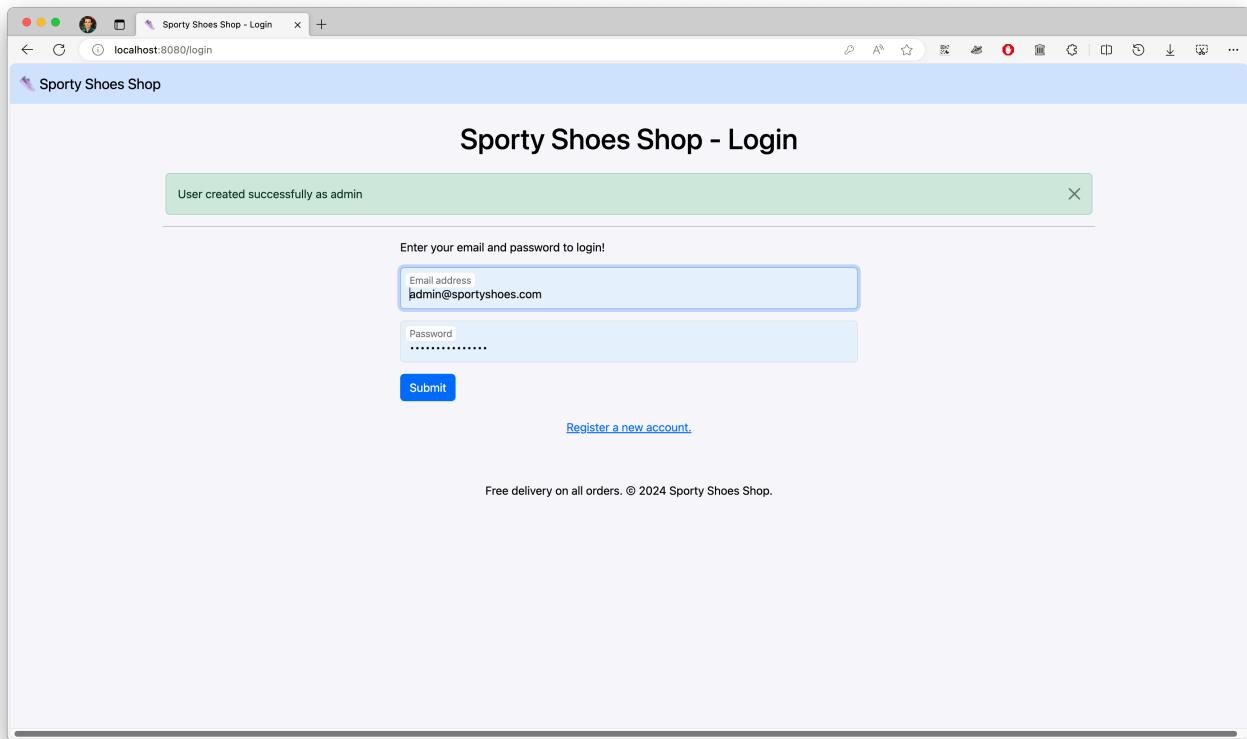

The login page is shown below.

The registration page is shown below.

Once a user has been registered, the user can log in with their email address and password. The web browser detects the login form, and fills in the email address and password automatically.

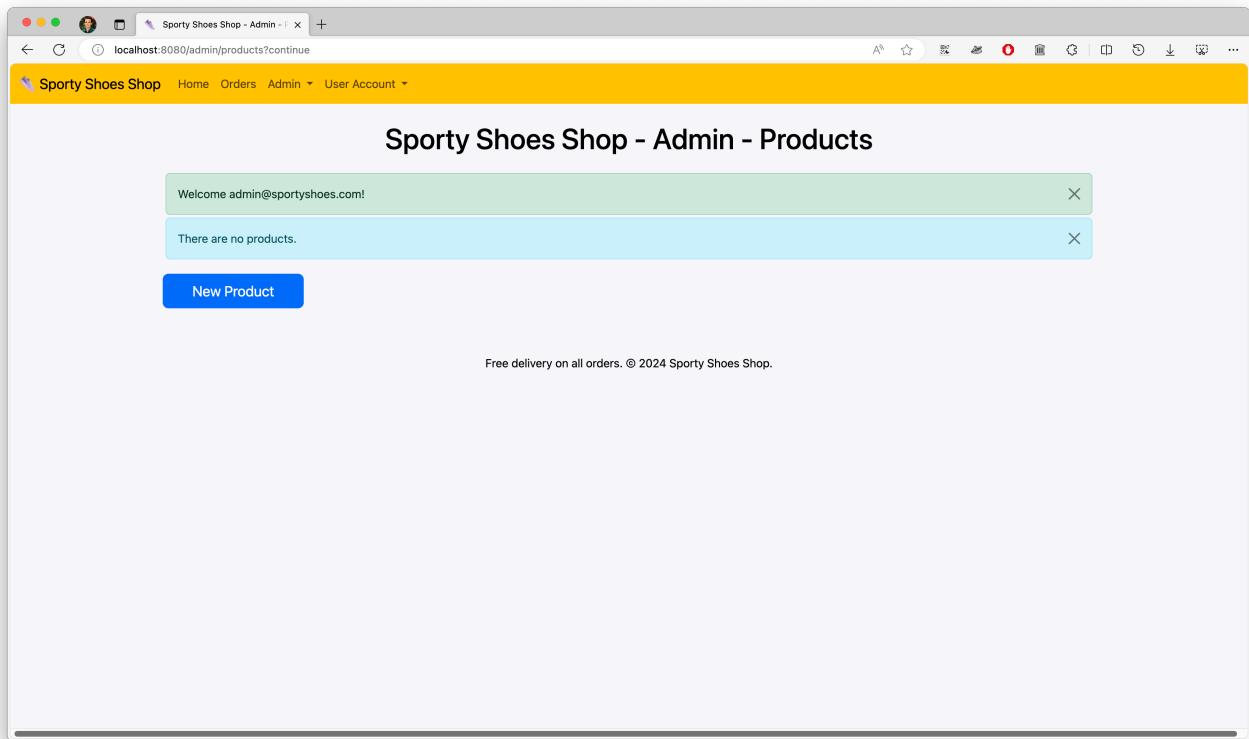

Once the admin user has logged in, they are taken to the admin products page.

## Admin Dashboard

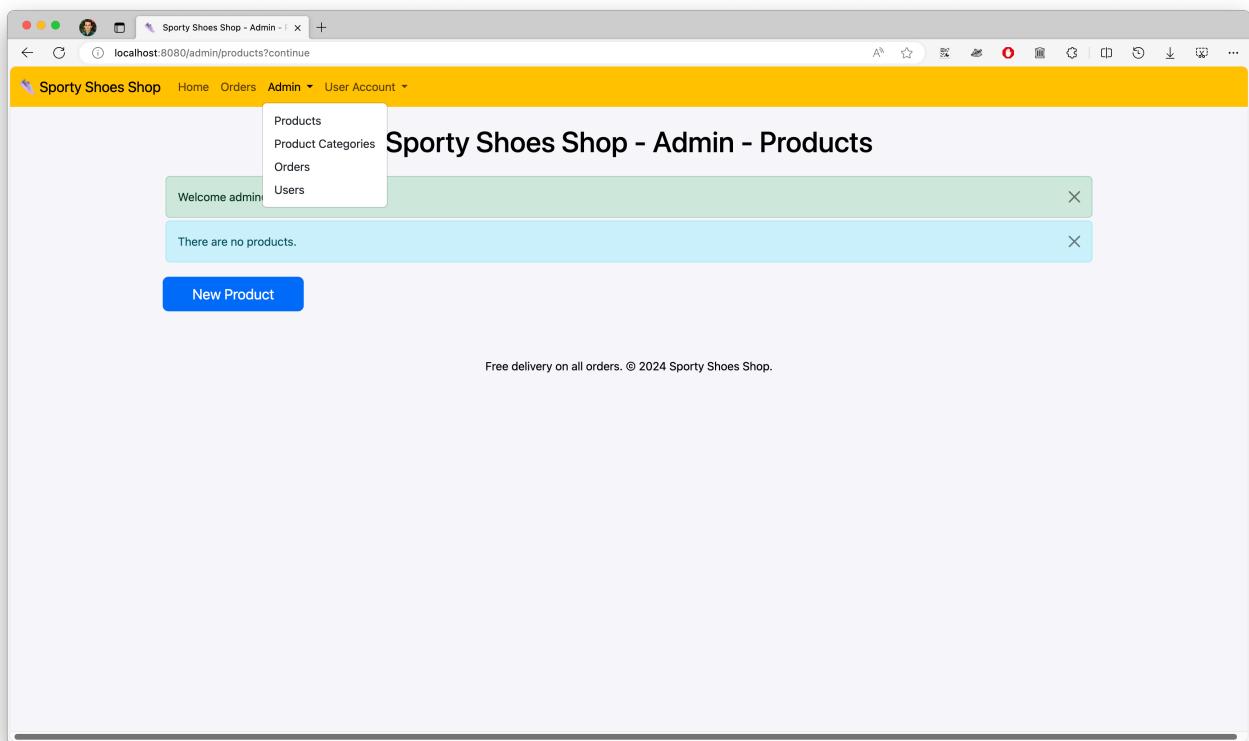

All admin pages at the `/admin/*` address have a yellow navigation bar and are only accessible to the admin user.

## Product Management

The product management page is shown below. There are no products because the admin user has just been created.

The admin user can access other admin pages using the dropdown menu in the navigation bar.

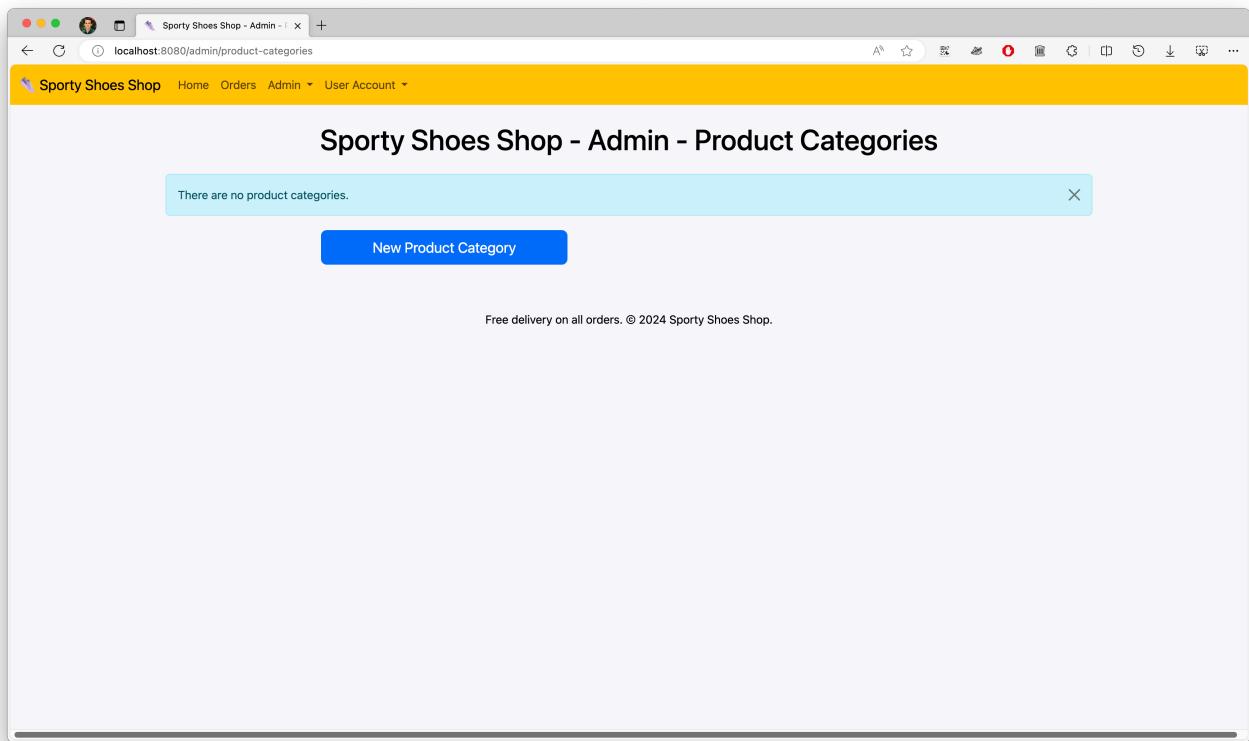

Before creating products for the site, the admin user will create categories for the products.

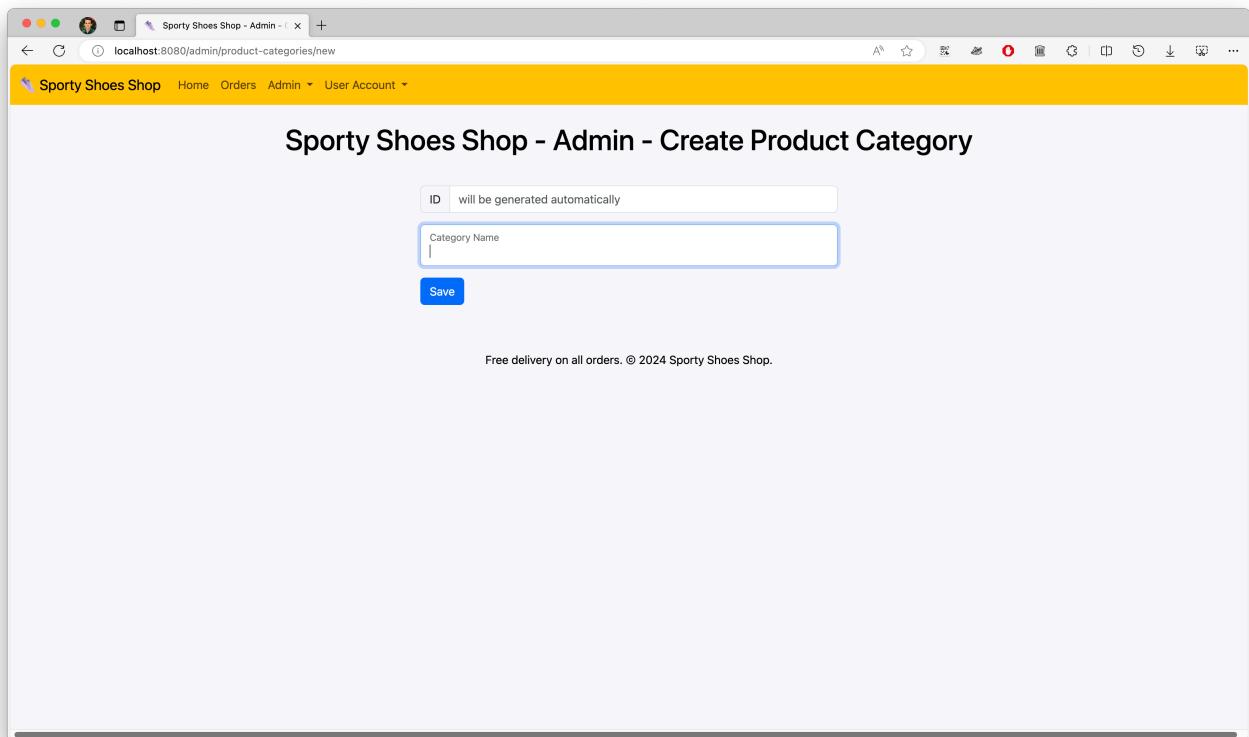

## Product Categories

The product categories management page is shown below. It is empty because no categories have been created yet. The admin user can create categories by clicking on the **New Product Category** button.

button.

The admin user can create a new category by entering the category name and clicking the Save button.

The admin user can then see the new category in the categories list, including how many products each category has. They can also search for categories using the search box, and the table will update to only show matching categories as they type.

Below the table, it says '5 products'. At the bottom, there is a note 'Free delivery on all orders. © 2024 Sporty Shoes Shop.'

The admin user can also edit the product by clicking the `Edit` button. When the product is edited, the old product is marked as 'deleted' and a new one is created in its place with the new details. This allows users to see the product in their order history with the correct details.

The screenshot shows the 'Sporty Shoes Shop - Admin - Edit Product' page. The product ID is set to 3. The form fields include:

- Name:** Adidas Ultraboost
- Description:** The Adidas Ultraboost is a comfortable running shoe designed for long-distance runners. It features a Primeknit upper for a snug fit and Boost cushioning for energy return.
- Product Category:** Trainers
- Price £:** 180.0
- Stock:** 25

A blue 'Save' button is at the bottom. At the very bottom, there is a note 'Free delivery on all orders. © 2024 Sporty Shoes Shop.'

Data validation exists to ensure that the stock and the price do not fall below 0. If the admin user tries to save the product with invalid data, an error message is shown.

The screenshot shows a web browser window titled "Sporty Shoes Shop - Admin - Edit Product". The URL is "localhost:8080/admin/products/3?continue". The page has a yellow header bar with the "Sporty Shoes Shop" logo and navigation links for Home, Orders, Admin, and User Account.

The main content area is titled "Sporty Shoes Shop - Admin - Edit Product". It contains the following fields:

- ID: 3
- Name: Adidas Ultraboost
- Description: The Adidas Ultraboost is a comfortable running shoe designed for long-distance runners. It features a Primeknit upper for a snug fit and Boost cushioning for energy return.
- Product Category: Trainers
- Price £: 180.0
- Stock: -5

A blue "Save" button is located below the form. A validation message is displayed next to the Stock field: "Value must be greater than or equal to 0." Below the form, a small note says "Free delivery on all orders. © 2024 Sporty Shoes Shop."

Further elements of the admin dashboard are shown below.

## User Shopping

We will now register a standard (non-admin) user and login. All users created after the first user are standard users with no access to the admin pages.

When a standard user logs in, they are taken to the products page. The user can see all the products that the admin user has created. The user can choose products by entering a quantity, and the product will be highlighted green. The user cannot order products that are out of stock, and cannot order more products than are in stock.

Once the user has selected their products, they enter a delivery address and click the **Order** button to create an order.

The screenshot shows a web browser window for 'Sporty Shoes Shop' at localhost:8080?continue. The page features a header with the shop name and navigation links for Home, Orders, and User Account. Below the header is a search bar labeled 'Search for products...' and a dropdown menu for 'Product Category' set to 'All'. The main content area displays five product cards:

- Air Jordan 1** (Sandals): A high-quality basketball shoe. Description: 'The Air Jordan 1 is a high-quality basketball shoe that offers superior comfort and support. It features a leather upper for durability and a rubber outsole for traction.' Price: £150.00 Quantity: 2
- Nike Air Force 1** (Trainers): A classic low-top shoe. Description: 'The Nike Air Force 1 is a classic low-top shoe that combines style and comfort. It features a durable leather upper and a soft foam midsole for lightweight cushioning.' Price: £90.00 Quantity: 2
- Adidas Ultraboost** (Trainers): A comfortable running shoe. Description: 'The Adidas Ultraboost is a comfortable running shoe designed for long-distance runners. It features a Primeknit upper for a snug fit and Boost cushioning for energy return.' Price: £180.00 Quantity: 0

At the bottom, there is a text input for 'Address' containing 'My House, My Street, London, W1A 2AB' and a blue 'Order' button.

The user can filter products by category, and search for products using the search box. The table will update to only show matching products as they type. Products that they have added a quantity to but are not shown in the filter are greyed out, but still visible as they will be ordered.

This screenshot is similar to the first one but shows a dropdown menu for 'Product Category' open, revealing options: All, Boots, Sandals, Trainers (which is selected), Insoles, Socks, and Slippers. The rest of the page content, including the product list and the 'Order' button, remains the same.

The screenshot shows the homepage of the Sporty Shoes Shop. At the top, there's a search bar with the placeholder "Search for products..." containing the text "chuck". To the right of the search bar is a dropdown menu for "Product Category" set to "All". Below the search bar, there are three product cards:

The admin user can search for users using the search box, and the table will update to only show matching users as they type.

The screenshot shows a web browser window titled "Sporty Shoes Shop - Admin". The URL is "localhost:8080/admin/users". The main content area is titled "Sporty Shoes Shop - Admin - Users". A search bar contains the text "dw". Below it is a table with three columns: "Email", "Is Admin?", and "No. of Orders". There is one row in the table with the email "dwight@gmail.com", the "Is Admin?" column has an unchecked checkbox, and the "No. of Orders" column shows the number "2" which is colored blue. Below the table, a message says "1 user". At the bottom of the page, a footer note reads "Free delivery on all orders. © 2024 Sporty Shoes Shop."

The admin user can see the users' email addresses and the number of orders they have placed. They can click on the blue number of orders to see the user's order history on the admin Orders page. This is done using query parameters in the URL.

The screenshot shows a web browser window titled "Sporty Shoes Shop - Admin". The URL is "localhost:8080/admin/orders?user=dwight@gmail.com".
